

Hello Everyone,

We are super excited to announce that we will be re-opening in-person classes, workshops, turf/mat rentals, and private lessons starting June 1st! The safety of our staff, our community and ourselves is of the utmost importance to us. We feel a “proceed with caution” plan is appropriate. We also understand that many people feel strongly about sheltering in place. We respect your opinion and decision to do so. We hope to address your needs either way. For those of you who **love** virtual Zoom classes, we will continue to offer Manners classes online rather than attending in-person classes if you choose.

**NEW ALL Classes and Workshop Requirements:**

- **ONLY**, One handler per dog may attend class.
- Please limit personal belongings that are brought into the facility.

**Please bring for ALL AGILITY (TURF) CLASSES, WORKSHOPS & TURF RENTALS:**

- Mat for underneath your crate (agility classes only). Mats are available for purchase in our retail area.
- Blankets to cover your crate. **MUST PROVIDE YOUR OWN BLANKET!**
- Mats or pads for inside the crates. These **will not** be provided.
- You may wear a mask for class, workshop and turf/mat rental sessions, but it is not required.
- Water dish for your dog.
- Please bring your own water bottle for you and water for your dog.
- Think Pawsitive will **not** provide use of in-house treats, Kongs or chews for class. You are encouraged to bring treats and chews from home or pre-pay well in-advance for these items before the start of your class.
- There will be markings on the floor for where to put your mat and crate. We will open 10 minutes before class for you to choose a spot. Plan to social distance as far away as possible from people already set up; there are plenty of spots available!
- Waiting rooms will not be available prior to classes, workshops, or turf/mat rentals. Please wait in your vehicle **outside** for an instructor or staff member to invite you in. PLEASE BE ON TIME FOR CLASS.

**Please bring for ALL PUPPY & ADULT CLASSES, NOSEWORK & FOUNDATION AGILITY CLASSES:**

- Blankets to cover your crate. **MUST PROVIDE YOUR OWN BLANKET!**
- Mats or pads for inside the crates if you choose. These **will not** be provided.
- You may wear a mask for class, but it is not required.
- Water dish for your dog.
- Please bring your own water bottle for you and water for your dog.
- Think Pawsitive will **not** provide use of in-house treats, Kongs or chews for class. You are encouraged to bring treats and **PLEASE** bring a chew to assist your dog in being settled and quite in their crate!!
- Please bring your own toys to class. Think Pawsitive will **not** have shared toys available for use in class.
- There will be crate “stations” set-up in each training room for you to choose. We will open 10 minutes before class for you to choose a spot. Plan to social distance as far away as possible from people already set up; there are plenty of spots available!
- Waiting rooms will not be available prior to classes, workshops, or turf/mat rentals. Please wait in your vehicle **outside** for an instructor or staff member to invite you in. PLEASE BE ON TIME FOR CLASS.

**Registering or Scheduling for Classes or Workshops:**

- We strongly suggest that students register for classes ahead of time. We will only have a maximum of 6 spots available. We will put you on a waitlist and add more classes when there is a need for it.
- Register for class and pay online or over the phone whenever possible to avoid exchanges at the front desk. We will, of course, take care of in-person needs including product purchases.

**Think Pawsitive Cleaning Procedures:**

- Hand sanitizer and disinfectant spray will be provided to you in each classroom and the turfed arena.
- All commonly touched surfaces (doors, crates, chairs, light switches, handles, etc.) will be disinfected after each class.
- The bathroom will be thoroughly disinfected.
- Adjusting Jump Heights: Our instructors will assist in resetting bars for jump height changes. The jump bars will be wiped down with sanitizer at the end of each class session.
- We will continue to thoroughly clean our facility regularly as we always have.

**Please remember:** If you or anyone in your house is experiencing any symptoms of being unwell, or have a cough, do not come to the facility.

Again, we will remain cautious and keep our plan fluid as the tide changes. Please remember this really is a team effort and we greatly appreciate your understanding. We welcome any questions or concerns you may have.

Lastly, we could not be here today if not for the support of all of you over the last few years. Thank you for being a part of our Think Pawsitive family. I also want to thank our team of instructors. They are committed to helping you and your dog continue your dog training skills and keep you safe while doing so!

Thank you,  
Katie Oilschlager
